

# Reality of Money<sup>®</sup>

This activity gives students a peek into the future as they are transformed into young adults with jobs, debt, families, and other real world responsibilities. During the simulation students move through multiple expense stations where volunteers assist them in making the everyday financial decisions necessary to make it to their next payday. This activity provides a great opportunity for schools to work side by side with SECU, parents, and community volunteers to help students prepare for their financial future.

## KEY LEARNING OBJECTIVES:

1

The importance of good credit and its effect on financial opportunities

2

The advantage of additional education after high school

3

The value of smart financial decisions to create a solid foundation for the future
